PROPOSAL FOR PARTNERSHIP

Recycling Partners of Jamaica Ltd would like to enter a partnership with you, to aid the country's fight to reduce the plastic waste from the environment.

Recycling Partners of Jamaica (RPJ) is a charitable organization founded in 2014 as a joint mission between the private sector and the government. The company has as its mandate to reduce plastic bottle waste in the environment. Jamaica currently produces 800 million plastic bottles per year, and we are charged with ensuring that by 2025, we are collecting 85% of that amount for recycling. We need your assistance to help make this goal a reality.

We have eight collection depots across the country where plastic bottles are sorted into colors and baled (compressed into blocks), which we now export. The recycler that the bottles are sold to, grinds them into chips, which then becomes a raw material that is used to make several things from road and building materials to cloth, toys and furniture. What we are proposing for your entity is an RPJ branded receptacle on your compound, in an accessible area, where persons can take their plastic bottles, already bagged, and place inside the bin.

PARTNERSHIP DETAILS:

RPJ's responsibilities

1. We will provide you with branded recycling receptacle(s) for the collection of plastic bottles only for the location(s) identified.
2. We will collect the packaged bottles as soon as the receptacle(s) is/are filled.
3. We will promote this location(s) as a drop off centre.
4. Provide the necessary notices for public education and awareness

Your responsibilities

1. Ensure that receptacle(s) is/are properly cared for, visible and accessible.
2. Notify RPJ when collection is required, allowing 5- 7 working days for collection.

Address(es) of location(s) recycling receptacle(s) is/are to be placed:

25 RETIREMENT ROAD, KINGSTON
